The New Jersey FFA Association has plans to live stream portions of LEAD for members and teachers to use for educational purposes. This will also allow parents to watch LEAD in real-time.

As you are aware, there are potential dangers associated with the posting of personally identifiable information on a web site since global access to the internet does not allow us to control who may access such information. These dangers have always existed; however, we as a student organization do want to celebrate your child and his/her work. The law requires that we ask for your permission to use information about your child. (In accordance with Bill A592 and the NJ Dept. of Education.)

As a parent/guardian I have read the above and understand that my child must abide by the rules and understand the consequences of violating this code of conduct. Additionally, I grant permission for the New Jersey FFA Association to use my child's name and photo in materials produced for FFA programs, or presentation in programs for FFA materials, including, but not limited to educational resources, press releases, web-based publicity, live streaming on the web, and other publicity materials.
